It is the core and cardinal responsibility of the law school administration to make sure of the best qualitative and progressive learning process and skilling opportunities for the students at all times. We run our law school academic activities in different modes and experiment with multiple forms of legal education in the classroom and experiential learning. It is our mandate that we have to make sure that our students have to be up-skilled more and more with industrious courses and industry experts, with better classroom support and quality internships in time and opportunities.
