Dear Parent / Student,

Greetings from Lloyd academic community!

Course Chief Faculty :: Mr. Bhumesh Verma, Managing Partner, Corp Comm Legal.

Course Preface :: “Practical Approach to Drafting of Contracts & Negotiation Skills”

Need for practical training ::

Our law institutes have limited time to train students professionally with a plethora of subjects to cover, internal and semester exam schedule, moot courts, holidays, semester / internship breaks and so on. Contract drafting / reviewing / negotiation skills are some of the most important traits of any lawyer and can hardly be overemphasised – be it practising in a court, working with a law firm or a company or being a legal entrepreneur. However, most of the books available on the subject throw light only on provisions of Contract law and not on practical skills. Reading draft contracts or even books on contract drafting too has its own limitations. During internships, students hardly get work beyond proof-reading of a contract. In a law firm or a corporate office, there is no time to train and teach new kids on the block. Once hired, no one is given any concessions for not knowing contract drafting beforehand, despite knowing that most students are not taught this in law school. As a result, most students learn by trial and error. Many prevalent practices are outdated, superfluous, or even counterproductive. Realising this, legal educational institutions are enhancing their engagement with professionals to impart practical knowledge to their students to make them job ready and infuse confidence.

The Focus Areas ::

The practical and interactive sessions (about 30 hours duration) will emphasise, inter alia, upon:
