GO FOR GRADES! :: Choose Distinction Than Rejection!

Dear student,

Choices makes us the person we are today and way forward!

You must be preparing for and appearing in the Odd Semester CCS University Examinations. Prepare and do well in your Examinations. You have the potential to be a toppers in the Section, Batch, College/School, University, even attaining better than your previous course / semester(s).

Grades are one most important and happy takeaways of your academic life for the life ahead. Good grades elevate your confidence, standard, impression, distinction and career prospects. First thing every employer/anyone will see your grades, it never goes off from your C.V., your mind, opportunities coming your way having a benchmark of grades like applicable to 65% or above will make you feel under achiever and jealous.

Grades make your parents more satisfied than any other achievements. Grades are your first best gift to your parents for the sacrifice and enduring 24x7 for your better education, career and life. Your parents never have a day without thoughts and procurements for you, however, you may have days without thinking about and care of parents. Parents are not your bankers or financers rather you are their only world where they live 24x7. They remember you before every meal, before every sleep, before every personal or household merchandise. You are nested in their mind in every dawn and dusk, in every winter, summer and rainy season. You are the centre and nucleus of discussion when they buy anything or meet extended families. They have procured and invested everything means everything for your education, health and life, now you are their only asset, they are left with no other assets in educating you. Don't sleep on their dreams, wake-up and rise to your potential. If you feel sleepy or unable to focus on reading, remember the plight and sacrifice your parents, you will certainly get back to studies. I talk to them, I have met them, time and again I have seen them concerned for your better education, career and life. I saw their glowing faces with content and heard their voices on your achievements. In 2023 Ms. Samikshya Chaudhary, in 2022 Ms. Sunidhi Pandey, in 2021 Ms. Manya Jain, Ms. Princy Chaudhary, Ms. Shubhangi, Ms. Sakshi Mehra and Mr. Rishabh Tripathi, these Lloyd Law College students topped 05 out of 06 positions among 15000+ students of their whole batch of CCS University, Meerut. They were presented degrees and awarded by **Smt. Anandiben Patel, Hon'ble Governor, Uttar Pradesh**. I remember their joy and proud on the consistent good work of their child. Every parent is the same, you can also achieve the same or better result and happiness and pride for your parents.

In life we all have choices every time, everywhere, we may choose or reject to rise early at 03 or 04 or 05 or 06 AM. We choose or reject to attend and attain 100% class attendance. We may choose or reject to participate in moot, debate, ADR etc. We may choose or reject the friendship or leisure, every choice that is taken is evident in your C.V., CHOOSE DISTINCTION THAN REJECTION.

We are in service for your better education, career and life. Good Luck, May God Bless you the best and Most in career and life!
